CONTENTS

Cybercrime.....	2
Digital Investigation and Digital Evidence	3
Digital Forensics	4
Digital Surveillance vs. Privacy	6
Cyber Security.....	8

CYBERCRIME

- The Big Business of Cybercrime. Read the report from [Arctic Wolf](#) featuring research from [Cybersecurity Ventures](#). [Link](#)
- 'Everything is fake': how global crime gangs are using UK shell companies in multi-million pound crypto scams. [Link](#)
- Hackers attack Israel's Technion university, demand over \$1.7 million in ransom. [Link](#)
- GoDaddy: Hackers stole source code, installed malware in multi-year breach. [Link](#)
- Has a Sanctioned Bitcoin Mixer Been Resurrected to Aid North Korea's Lazarus Group? [Link](#)
- Conti Leaks: Practical walkthrough and what can we learn from it. [Link](#)
- Top Russian Cybercrime Forums in 2023. [Link](#)
- 2023 Dark Web Hacked Social Media Prices and Trends. [Link](#)
- New Book: The Cryptocurrency and Digital Asset Fraud Casebook. [Link](#)

DIGITAL INVESTIGATION AND DIGITAL EVIDENCE

- Interpol working out how to police the Metaverse. [Link](#)
- 10 dark web monitoring tools. [Link](#)
- German Constitutional Court strikes down predictive algorithms for policing. [Link](#)
- Access to e-evidence: Council authorises member states to ratify international agreement. [Link](#)
- As crime-solving goes hi-tech, public defenders scramble to keep up. [Link](#)
- Covert Investigations: New updates and guidance around Regulation of Investigatory Powers Act (RIPA). [Link](#)
- There Is No 'Going Dark:' Dutch Law Enforcement Spent Months Intercepting, Reading Encrypted Messages. [Link](#)
- European Police Arrest 42 after Cracking Covert App. [Link](#)
- New strike against encrypted criminal communications with dismantling of Exclu tool. [Link](#)
- U.S. Justice Department Takes Down Hive, a Major Ransomware Group. [Link](#)
- Notorious Finnish Hacker 'Zeekill' Busted by French Police. [Link](#)
- Russian crypto exchange exec pleads guilty to laundering Ryuk ransomware funds. [Link](#)
- Internet history helped Portland investigator crack the "How to Murder your Husband" case. [Link](#)
- 'Accountability and justice': Gathering digital evidence of war crimes in Ukraine. [Link](#)

DIGITAL FORENSICS

- Virtual DFIR: Why digital forensics needs to go remote. [Link](#)
- ChatGPT: A Digital Sleuth For Detectives? [Link](#)
- Deepfake Videos and Altered Images - A Challenge for Digital Forensics? [Link](#)
- An anonymous whistleblower has leaked Cellebrite's phone forensics software and its documentation. [Link](#). [Link](#)
- Grayshift Introduces Powerful New Capabilities and Exclusive Mobile Device Support in ArtifactIQ, the First Cloud-Native Mobile Device Forensic Analysis Solution. [Link](#)
- Magnet AXIOM Cyber From Magnet Forensics. [Link](#)
- Atola Introduces Cryptocurrency Artifact Search and New Wiping Methods in Insight Forensic 5.3. [Link](#)
- Passware Kit Mobile 2023v2 Introduces Passcode Recovery For Xiaomi & Huawei MediaTek-Based Devices. [Link](#)
- Evasion Techniques Uncovered: An Analysis of APT Methods. Velociraptor DFIR to hunt for DLL injection artifacts. [Link](#)
- Questions and Answers about Atola Imagers from Digital Forensic Events in 2022. [Link](#)
- Vound Software launches new Intella Investigator product - A Browser-Based Platform To Gather & Analyze Digital Evidence. [Link](#)
- Oxygen Forensics video on WhatsApp decryption. [Link](#)
- Monolith Forensics launches Relay, a platform that allows forensic lab partners to submit and manage requests for forensic services. [Link](#)

- Webinar: The Why & How of WriteBlocker Validation. [Link](#)
- E-book: ChatGPT and Its Application in the Field of Digital Forensics. [Link](#)
- Complete PDF Guide on Forensic Swab. [Link](#)

DIGITAL SURVEILLANCE VS. PRIVACY

- Lex Mundi Reports on Global Trends in Data Privacy in 2023. [Link](#)
- EDPB publishes three guidelines on international data transfer and deceptive design patterns in social media. [Link](#)
- EDPB issues its Opinion on the EU-U.S. Data Privacy Framework. [Link](#)
- How the Supreme Court ruling on Section 230 could end Reddit as we know it. [Link](#)
- UK Proposes Making the Sale and Possession of Encrypted Phones Illegal. [Link](#)
- UK Information Commissioner's Office Publishes Guidance for Video Game Developers and Designers to Improve Data Protection in their Services. [Link](#)
- China Finalizes Standard Contract for Cross-Border Transfers of Personal Information. [Link](#)
- Italian Garante Fines Three Hospitals over Their Use of AI for Risk Stratification Purposes, Establishes That Predictive Medicine Processing Requires the Patient's Explicit Consent. [Link](#)
- Developers Created AI to Generate Police Sketches. Experts Are Horrified. [Link](#)
- Punitive surveillance. [Link](#)
- Police surveillance firms are just data brokers. [Link](#)
- Amid industry pressure, tech companies are starting to rally behind kids' safety bills. [Link](#)

- You Can't Trust App Developers' Privacy Claims on Google Play. [Link](#)
- Fingerprint vs Face ID: Which is safer? [Link](#)
- TikTok under investigation by Canadian privacy authorities. [Link](#)
- Signal CEO: We "1,000% won't participate" in UK law to weaken encryption. [Link](#)
- Tor Project Moves Away from Infrastructure Ran by Internet Monitoring Firm. [Link](#)
- LastPass Shouldn't Be Trusted With Your Passwords. [Link](#)
- Access to justice in data protection: the more things change, the more they (can also) stay the same. [Link](#)

CYBER SECURITY

- Information Security Vs. Cyber Security - Key Differences. [Link](#)
- Cyber Insights of 2023 to SHARE. [Link](#)
- Threat Hunting: Moving beyond reactive intelligence. [Link](#)
- Top 10 Cyber Attack Maps to See Digital Threats 2023. [Link](#)
- Kaspersky Cyber-threat real-time Map. [Link](#)
- US National Cyber Strategy Pushes Regulation, Aggressive Hack-Back Operations. [Link](#)
- 11 Countries Take Part in Military Cyberwarfare Exercise. [Link](#)
- NIST Selects 'Lightweight Cryptography' Algorithms to Protect Small Devices. [Link](#)
- AI Helps Crack NIST-Recommended Post-Quantum Encryption Algorithm. [Link](#)
- Enisa published "A Governance Framework for National Cybersecurity Strategies". [Link](#)
- Coordinated Vulnerability Disclosure: Towards a Common EU Approach. [Link](#)
- Hunt Evil Your Practical Guide to Threat Hunting. [Link](#)
- Snyk Top 10: Open Source Vulnerabilities in 2022. [Link](#)
- Best Web Security Scanners For Vulnerability Scanning - 2023 [Cyber Threat Intelligence](#). [Link](#)
- Zero day affecting Fortra's GoAnywhere file transfer tool is actively being exploited. [Link](#)
- Google Paid Out \$12 Million via Bug Bounty Programs in 2022. [Link](#)

- Intel Paid Out Over \$4.1 Million via Bug Bounty Program Since 2017. [Link](#)
- Backdoor Deployment and Ransomware: Top Threats Identified in X-Force Threat Intelligence Index 2022. [Link](#)
- Thousands of WordPress sites have been infected by a mystery malware. [Link](#)
- GoDaddy: Hackers stole source code, installed malware in multi-year breach. [Link](#)
- Hackers Use Open-Source Tools to Attack Shipping Companies & Medical Laboratories. [Link](#)
- Evolving cyberattacks, alert fatigue creating DFIR burnout, regulatory risk. [Link](#)
- White Paper: Risk Management Insights from 10 years of Breach Event Monitoring. [Link](#)
- 265 Brands Impersonated in Phishing Attacks. [Link](#)
- 9 Cognitive Biases Hackers Exploit the Most. [Link](#)
- A free practice lab! [#Apache](#) APISIX is a popular open-source, [#API](#) gateway. Learn to bypass IP restrictions on it by leveraging the batch-request plugin to perform smuggling by injecting [#Lua](#) code. Sign in at <https://bit.ly/3yn04ig> and try it at <https://bit.ly/416xPDd>
- Iran responsible for Charlie Hebdo attacks. [Link](#)
- New Book. Network Basics for Hackers: How Networks Work and How They Break. [Link](#)
